

ESSENTIAL SUPPORT PACKAGE

Minimal or no H&S management system? Are you concerned about your level of compliance with the new Health and Safety at Work Act, avoiding fines and would like the confidence to feel supported by experienced Health and Safety professionals?

We can offer the fundamental support and training required to help you keep your workers safe, ensure compliance and guide you to reduce injuries and absenteeism with our Essential Support Programme

Workplace H&S Review

On site assessment, data collection, photos and interviews. You are provided with a report outlining compliance requirements and prioritised recommendations

Tailored Framework Documents

We set you up with the core documents your business requires to be compliant. This could include incident, hazard, training or any other templates identified as required

Staff Training

Our H&S consultant will come to your site and train staff and managers in the proper use of framework documents to support compliance

Quarterly H&S Support Visits

Worksite support visits quarterly from a H&S consultant; these may be used for toolbox meetings or to train staff and managers in optimal use of your Health and Safety management system such as hazard ID, incident reporting, record keeping, H&S meetings and injury management

On Call Advice

Available when required to provide support and advice for health and safety issues or concerns relevant for specific individuals or worksites

***H&S Review/Set up fee \$1500+GST
Monthly fee (12month contract) \$239+GST***
